03/6/2011	1.0	Himank Vijay	Initial Draft
03/06/2011	1.1	Chinmoy Das	Final Version
15/06/2011	1.2	Himank Vijay	Final Version
26/09/2011	1.3	Ben Husby	Updated Supplier Questionnaire
27/01/2014	1.4	Ben Husby	Updated step 2
29/01/2014	1.5	Ben Husby	Updated Supplier Questionnaire to include SFTP Config questions
01/04/2014	1.6	Ben Husby	Updated text and arranged steps to match existing process

### Distribution

Name	Title	Document Version	Date
Himank Vijay	To Wayne Karcher and team.	1.1	15/06/2011

### Approval Signatures

Name	Title	Document Version	Signature	Date

## Steps for EDI enablement for NA EDIFACT Suppliers

1. Please complete the [Tenneco EDI Questionnaire](#) and send it to Tenneco Business Team at [edissetup@tenneco.com](mailto:edissetup@tenneco.com) and Tenneco's EDI team at [ta.edi@tenneco.com](mailto:ta.edi@tenneco.com)
2. Download the EDI specifications by navigating to the [Tenneco Supplier Manual](#). On the left side green color panel choose **Supplier Manual -> Region Specific Information and Requirements -> North America -> Section A.4.0 "Electronic Data Interchange (EDI) or Tenneco SupplyWEB"**
3. Download the following specifications for EDI implementation for North America for standard EDIFACT:
  - a) [EDIFACT - Appendix A](#)
  - b) [EDIFACT – DELFOR Specifications](#)
  - c) [EDIFACT - DESADV Specifications](#)
4. Once the specifications are downloaded, please download the test files for material release planning schedule (DELFOR) attached below and integrate into your EDI maps.

[Planning Schedule Test Data – DELFOR –Delivery Date](#)  
[Planning Schedule Test Data – DELFOR –Ship Date](#)

5. Once the files are downloaded in your system, open them and replace the “XX” and “XXXXXXXXXX” in UNB segment by UNB ID. Then replace “TTTTTTTTT” in NAD+CN segment by Tenneco's plant DUNS number (Appendix A). Then replace “VVVVVVVVV” in NAD+SE by Supplier's DUNS number.
6. Once the files are downloaded in your system and test integration of plan schedule (DELFOR) is completed, please use our EDI specification “EDIFACT - DESADV Specifications” to generate a test ASN (DESADV) to initiate testing with Tenneco EDI team. (The test ASN data should correspond to the test data of DELFOR you downloaded from this document). **Please find a sample ASN in the EDIFACT DESADV specification and make sure the structure of your test ASN matches it.**
7. Once you have completed the creation of test ASN, copy the raw data in text format and send it in an email to the Tenneco EDI business team at [edissetup@tenneco.com](mailto:edissetup@tenneco.com) and Tenneco's EDI IT team at [ta.edi@tenneco.com](mailto:ta.edi@tenneco.com).

8. Once you have emailed the test ASN, a representative from the Tenneco EDI team will get in touch with you as soon as a resource is available to complete the setup and conduct final testing. *Prioritization is required from the business team.*
9. In case of any questions related to above mentioned process please drop a mail to Tenneco's EDI team at [ta.edi@tenneco.com](mailto:ta.edi@tenneco.com)
